

HZ-420B

420W/480W moving head beam light

Technical Parameter

Input voltage: AC100V-240V/50-60HZ.

420W Light Source: Osram SIRIUS HRI 420W S ,4000 hours

480W Light Source: Osram SIRIUS HRI 480W S ,4000 hours

Rated power: 520W/550W

Channel mode: 16 channels

Horizontal scanning: 540 degrees

Vertical scanning: 270 degrees

Dimming system: 0-100% linear adjustment

Optical system: large-aperture optical lens with a diameter of 180MM is adopted, and the light spot is thick and full.

Focusing system: linear adjustment, 3 meters to infinity.

Frost system: independent frost effect, soft and natural light spot.

Beam angle: 1.8 degrees

Color temperature correction: 3200K-7500K.

High-speed stroboscopic effect: 5-13 times/second mechanical stroboscopic effect.

Adjustable speed and random stroboscopic effect.

Color: 14 colors+open, Rainbow effect with rotation, Half-color function.

Fixed Gobos: 14 gobos+running water+open, rotates forward and backward with gobo shaking function.

Prism system: 8 prisms and 8+16 prisms, each prism rotates forward and backward independently, and the two prisms can be superimposed for better effect.

Macro function: console reset function, console switch bubble function, built-in self-propelled function.

Display mode: 1.8-inch LCD color LCD touch screen.

Control Mode: DMX512, with RDM function.

Product net weight: 19KG

Product size: 352*257*595MM(L*W*H)

Color

Fixed Gobo
